

## What did your child learn about at school?

The **internet** is actually a global network. It connects people and devices using Wifi, wires, underwater sea cables & satellites.

Our actions online leave a **digital footprint**. Anything we do on the internet is **possibly permanent and possibly public**.

We all have **rights** when we're online: to feel safe, be able to block/report other users and to seek help.

We also have **responsibilities** when we're online: following the rules (home/school/website/law) as well as considering the impact of our actions

## YEARS 3-4 TERM 1, 2023

### Some conversation starters:

- What is your #1 favourite thing to do online at the moment?
- Have you ever blocked or reported another player online? Why?
- Do you think it's fair that we have to follow rules online? What do you think would happen if there were no rules?
- What could you do if you needed help online? (Have a look at the Kids Helpline website together)
