Cyber Safety & Digital Wellbeing

LIVE STREAMED INCURSIONS

Our innovative live streamed incursions help primary school communities prioritise online safety and digital wellbeing.

Our award-winning solution....

- supports Child Safe Standards compliance
- aligns with Australian and State Curriculum
- engages children with age-appropriate content
- is written and presented by a team of experienced primary school educators
- ensures a consistent whole-school approach
- supports parents to be more informed and empowered
- aligns with the eSafety's Best Practice Framework for Online Safety Education

How does it work?

- Each term, students (with their teachers) tune in from the comfort of their classroom to watch an engaging, interactive live streamed incursion.
- Teachers are provided with a selection of follow up activities and lesson ideas.
- Parents are given a "tip sheet" after each session to help open up important conversations.

F

Screenshotime Superstars has been carefully crafted for our littlest learners. Together, we'll discover how to stay healthy, safe, and empowered while exploring the digital world.

1/2

Join Ollie as he begins his online adventures. While he loves his iPad and gaming we are quick to discover that he has a lot to learn... just like our junior students!

3/4

Storytelling and augmented reality is used to engage students in relatable and engaging scenarios. Characters face unique challenges, which provide opportunities to educate and empower.

5/6

Immersed in realistic scenarios, students are challenged to reflect more deeply about their online experiences. We unpack the values to thrive online - aware, clever, brave and kind.

PRICING

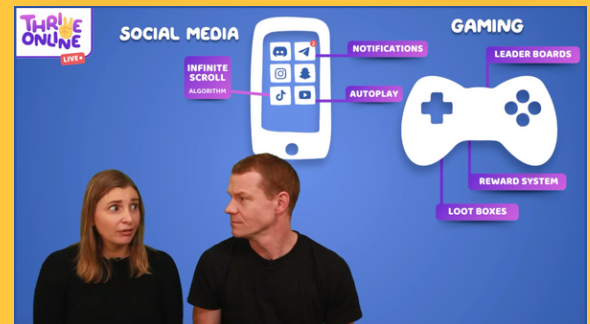

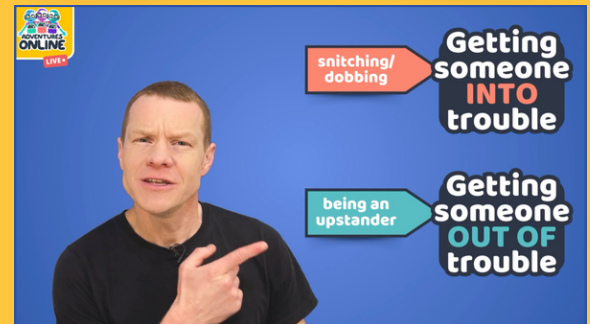

Early Bird: \$7.50 Prices are the annual cost per student and exclusive of GST (10%)
After Dec 1: \$9.00

SCOPE & SEQUENCE

Our live stream incursions differ in odd and even years to ensure students are always seeing new content. Whilst key concepts are revisited yearly, they are explored using different scenarios, which we ensure are age-appropriate and relevant.

Foundation students are offered a mix of on-demand and live streamed teaching so that content is delivered in a developmentally appropriate way.

	TERM 1	TERM 2	TERM 3	TERM 4
F	My Screen and Me Making good screen time choices (where and when), caring for our devices, sharing devices, finishing up screen time	Healthy Digital Habits Making good screen time choices (what and when) creating vs consuming	Safe Screentime Links and pop ups, safe and unsafe websites, trusted adults	Digital Agency Navigating uncomfortable online situations, taking care of yourself (Feelings), the right to be safe online
1/2	The Internet and You What is the internet, early warning signs, trusted adults	Healthy Digital Habits Screen time, green time, balance, sleep habits, comfortable & uncomfortable Feelings, putting down the tech	Digital Footprints Usernames & passwords, personal information, not everyone is who they say they are, trusted adults	Digital Detectives Critical thinking, digital literacy, navigating unsuitable online content
3/4	Digital Citizenship Understanding the internet, rights & responsibilities, digital Footprint & identity	Healthy Digital Habits Screen time, green time, balance, how tech makes us feel, sleep habits, comfortable & uncomfortable feelings	Cyberbullying Navigating uncomfortable situations, being an upstander, help seeking strategies	Being Safe & Secure Settings, keeping information private, navigating unsafe interactions, red flags
5/6	Digital Citizenship Rights & responsibilities, public & permanent, internet & the law, our digital footprint	Healthy Digital Habits Our relationship with tech, how tech makes us feel, why it's hard to put down the tech, screen time, green time, sleep, comfortable & uncomfortable feelings	Cyberbullying Navigating uncomfortable situations, being an upstander, help seeking strategies, consent	Critical Thinking Consumers vs creators, being a critical consumer, navigating unsafe interactions, red flags, evaluating websites & fake news

“ You nailed it! The children (and adults) were 100% engaged and every time they had to turn and talk about questions you posed, every child did that and stayed on task!

The pace of the session, Kahoot quiz, presentation and delivery, interaction and storytelling with significant messages was outstanding.

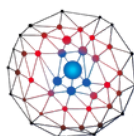

The rich discussion which followed and reinforced in class was an incredibly powerful set of learning tools.
