

### TIP SHEET FOR PARENTS & CARERS

**YEARS 1-2**  
TERM 3, 2023

## What did your child learn about at school?

There are some types of information we need to keep private online, such as our name, address, school, passwords and photos.

If someone online asks us for any personal information, we need to tell one of our trusted adults who can help us block & report.

We don't share personal information because the internet can be accessed by everyone - and not everyone is a trusted person.

## Some conversation starters:

- What are some things about ourselves we should never share with anyone online? Why not?
- What should we do if someone we don't know asks us for personal information, such as names, addresses or photos?
- If you were in a game on the internet with a player called "pinkzebra12", how old do you think this person could be? Boy? Girl? Man? Woman? Safe? Unsafe?

## Further Support:
